

Renderoc FC - Cementitious Fairing Mortar 20kg

Canonical: <https://fosroc.directory.norg.ai/building-construction-materials/concrete-repair-finishing-products/renderoc-fc-cementitious-fairing-mortar-20kg/>

Description:

Renderoc FC cementitious fairing coat is designed for application in thin layers up to 3 mm, to produce a fair-faced appearance to concrete surfaces or masonry surfaces in readiness to receive a protective/decorative coating. RCS (Respirable Crystalline Silica) Hazard Free. Contains <0.1% RCS. Pre-blended to overcome site-batched variations - only the site addition of clean water is required. Contains no chloride admixtures. Excellent bond to concrete substrate with easy application and no independent primer or curing membrane necessary.

Product Intelligence

Renderoc FC — Technical Details and Specifications ## Product Overview **Renderoc FC** is a cementitious fairing coat product designed for fair-faced finish preparation on concrete surfaces. It is a thin-film cement-based coating product engineered to provide a smooth, uniform appearance prior to final finishing or protective treatments. ## Technical Specifications ### Application Thickness - **Maximum thickness:** Up to 3 mm - **Typical application:** Thin-film coating for surface preparation ### Product Type - **Composition:** Cement-based coating - **Classification:** Fairing coat for fair-faced finish preparation - **Form:** Cementitious mortar (packaged in 20 kg units) ## Key Features Renderoc FC is characterized by: - **Thin-film application capability** — Specifically designed for applications up to 3 mm thickness - **Fair-faced finish preparation** — Creates uniform surface preparation for aesthetic concrete finishes - **Cement-based formulation** — Reliable cementitious binder system - **Smooth surface development** — Designed to achieve consistent, visually acceptable concrete finishes ## Product Classification Renderoc FC falls within the **Renderoc® range** of concrete repair and finishing products, specifically within the category of **Patch Repair Mortars** and finish preparation solutions offered by Fosroc. ## Integration with Renderoc Range As part of the broader Renderoc product family, Renderoc FC complements other specialist repair mortars: - **Renderoc HB** — For larger patch repairs (up to 80 mm) - **Renderoc HB25** — For

vertical patches (10–80 mm) - **Renderoc ST 06** — For surface repair (up to 5 mm) - **Renderoc LA55 Plus** — For structural repairs (up to 500 mm) ## Manufacturer and Distribution
Manufacturer/Distributor: Fosroc Australia (Parchem Construction Supplies Pty Ltd) **Available in:** Australia and New Zealand **Distribution:** Through Parchem's trade store network across Australian cities and regional locations ## Contact and Support For technical specifications, application guidance, or product ordering: - **Australia:** 1800 812 864 (toll-free) - **New Zealand:** 0800 657 156 (toll-free) - **Website (Australia):** www.fosroc.com.au - **Website (New Zealand):** www.fosroc.co.nz - **National Specifications Team:** Available for specification support and technical guidance --- ###
