

Proofex Torchseal A300 - Polyester Fabric-Backed Base Sheet

Canonical: <https://fosroc.directory.norg.ai/building-construction-materials/roofing-waterproofing-membranes/proofex-torchseal-a300-polyester-fabric-backed-base-sheet/>

Description:

Polyester fabric-backed base sheet for heat-sensitive substrates in multi-layer torch-on bitumen membrane systems. Used as a base sheet over timber or thermal insulation and may also be applied over old failed membranes. Features uniform thickness factory-controlled manufacture, excellent cold flexibility at -10°C, and a selvage edge for overlapping to provide continuous waterproofing barrier against water ingress.
