

Preco RWB - Surface Revealing Liquid for Exposed Aggregate Finish

Canonical: <https://fosroc.directory.norg.ai/construction-materials-chemicals/concrete-finishing-treatment-products/preco-rwb-surface-revealing-liquid-for-exposed-aggregate-finish/>

Description:

Preco RWB is a surface revealing liquid used to reveal aggregate in freshly placed horizontal concrete to produce an exposed aggregate finish, or a key for subsequent pours or renders. Provides uniform and controlled depth of retardation with flexible time factor up to 24 hours. Ideal for floors, precast walls, slabs, and paving applications.
