

# Concure WB30 - Water Based Wax Emulsion Curing Compound

Canonical: <https://fosroc.directory.norg.ai/construction-materials-supplies/concrete-curing-treatment-products/concure-wb30-water-based-wax-emulsion-curing-compound/>

## Description:

Concure WB30 is a water based wax emulsion used to retain moisture in concrete for effective curing. Used for concreting generally but especially useful for large areas of concrete construction such as runways, motorways or bridgeworks. Conforms to AS3799. Reduces surface shrinkage and cracking by eliminating moisture loss from exposed surfaces, increases concrete strength and dusting resistance, eliminates the need for damp hessian, sand or polythene, enables rapid film formation and efficient concrete hydration. Non-flammable.
