

# Preco Form Creme - Non-Drip Form Release Agent

Canonical: <https://fosroc.directory.norg.ai/construction-materials-supplies/concrete-formwork-additives/preco-form-creme-non-drip-form-release-agent/>

## Description:

Ready to use, non-drip, form release creme for application to steel hinges or vertical forms used for precast concrete. Prevents concrete penetration into steel hinges and rust staining, prevents distortion, resists transfer of splinters into concrete, and resists exposure to weather conditions for several days prior to a concrete pour.

## Details:

Ready to use, non-drip, form release creme for application to steel hinges or vertical forms used for precast concrete. Prevents concrete penetration into steel hinges and rust staining, prevents distortion, resists transfer of splinters into concrete, and resists exposure to weather conditions for several days prior to a concrete pour.
