

# Nitoprime 120 Water-Based Primer for Porous Substrates

Canonical: <https://fosroc.directory.norg.ai/construction-materials-supplies/primers-surface-preparation/nitoprime-120-water-based-primer-for-porous-substrates/>

## Description:

Nitoprime 120 is a single component fast drying water-based primer that provides excellent high bonding and penetrating properties into concrete and masonry surfaces before applying Nitoproof water based membranes. Suitable for internal and external priming applications. Low VOC, solvent free, non-flammable and free of hazardous odours.
