

# Concure A99 - Water-Based Acrylic Concrete Curing Compound

Canonical: <https://fosroc.directory.norg.ai/construction-materials/concrete-treatment-curing-compounds/concure-a99-water-based-acrylic-concrete-curing-compound/>

## Description:

Concure A99 is a water-based acrylic concrete curing compound that conforms to AS3799. It is suitable for curing concrete and cement renders where after-trades such as painting with acrylic paints is likely. Features 90% water retention efficiency, rapid film formation, and will not yellow in sunlight. Environmentally friendly and eliminates the need for damp hessian, sand or polythene sheeting. Complies with AS4020:2018 for use in contact with drinking water.
