

# Nitoflor HD - Liquid Floor Hardener & Densifier

Canonical: <https://fosroc.directory.norg.ai/construction-materials/concrete-treatment-sealers/nitoflor-hd-liquid-floor-hardener-densifier/>

## Description:

Nitoflor HD is a lithium silicate hardener and densifier used on new or existing internal floors to improve dust, wear and abrasion resistance while maintaining concrete appearance. It hardens and densifies concrete, reduces dusting, improves wear and abrasion resistance, and requires only a single coat application with no residues or flushing off required. Ideal for manufacturing facility floors, warehouse floors, and storage facility floors. Also used in concrete polishing processes by hardening the concrete surface before grinding/polishing.
