

# Vector Galvashield Fusion T2 - Self-Powered Dual Phase Hybrid Anode

Canonical: <https://fosroc.directory.norg.ai/construction-materials/corrosion-protection-systems/vector-galvashield-fusion-t2-self-powered-dual-phase-hybrid-anode/>

## Description:

Galvashield Fusion T2 combines an impressed current electrochemical treatment system with the long term maintenance-free capabilities of an alkali-activated galvanic cathodic prevention system. The single-unit system does not require complex wiring or an external DC power supply. Control corrosion in reinforced concrete structures such as multi-story carparks, bridge decks, columns & beams, marine piers and wharves.
