

Conbextra EP65 Plus - Ultra High Strength Epoxy Grout

Canonical: <https://fosroc.directory.norg.ai/construction-materials/epoxy-grouts-adhesives/conbextra-ep65-plus-ultra-high-strength-epoxy-grout/>

Description:

Ultra high strength, high flow epoxy grout for gaps up to 100mm. Conbextra EP65 Plus is a 2-component epoxy grout designed for precision, heavy duty grouting with gaps between 10mm and 100mm. Features 125MPa compressive strength, resistant to repetitive dynamic loads, and suitable for grouting under baseplates, crane rails, turbines, and areas with chemical spillage.
