

Nitoprime 330 - High Performance Flooring Primer

Canonical: <https://fosroc.directory.norg.ai/construction-materials/flooring-primers-sealers/nitoprime-330-high-performance-flooring-primer/>

Description:

High performance primer for Cemtop cementitious flooring systems and other cement based flooring products. Concentrated primer for Cemtop GP Advanced & Cemtop XD. Seals the substrate to prevent pinholes, promote adhesion and help prevent desiccation of the floor topping. Excellent adhesion to concrete and cementitious screeds with excellent water resistance after film formation.

Details:

High performance primer for Cemtop cementitious flooring systems and other cement based flooring products. Concentrated primer for Cemtop GP Advanced & Cemtop XD. Seals the substrate to prevent pinholes, promote adhesion and help prevent desiccation of the floor topping. Excellent adhesion to concrete and cementitious screeds with excellent water resistance after film formation.

Product Intelligence

Nitoprime 330 - High Performance Flooring Primer ## Product Overview **Nitoprime 330** is a specialized floor topping primer product manufactured and supplied by Fosroc as part of its comprehensive industrial flooring solutions portfolio. The product is specifically engineered to provide optimal bonding in flooring applications through a diluted application methodology. ## Technical Specifications ### Application Method Nitoprime 330 is applied in **diluted form** to achieve optimal bonding performance. This diluted application approach enables: - Enhanced penetration into substrate surfaces - Improved adhesion between the substrate and floor topping layers - Consistent bonding performance across varied concrete conditions - Flexibility in application rates based on substrate absorption ### Product Classification Nitoprime 330 is classified as a **floor topping primer** within Fosroc's primers and bonding agents product category. It serves as a foundation product for optimal performance in flooring system applications. ## Key Features - **Optimal Bonding:** Formulated to maximize adhesion between concrete substrates and subsequent flooring toppings - **Diluted Application:** Allows for controlled application and better substrate penetration - **System Component:** Works as part of Fosroc's complete industrial flooring system solutions - **Versatile Performance:** Compatible with various floor topping products within the Nitoflor and Cemtop ranges ## Product Integration Nitoprime 330 functions as a critical component within Fosroc's **flooring system architecture**: | Category | Application | |-----|-----| **Product Type** | Floor topping primer | | **Product Range** | Nitoprime Range | | **Product Family** | Primers and Bonding Agents | | **Manufacturer** | Fosroc (distributed by Parchem Construction Supplies) | | **System Role** | Foundation bonding layer for flooring toppings | ## Related Products Nitoprime 330 is part of the

broader **Nitoprime range** of primer products, which includes: - **Nitoprime 320PU** - Polyurea primer specifically designed for polyurea membrane applications - **Nitobond SBR** - Water-resistant polymer mortar additive for improved strength and adhesion - **Nitobond AR** - Single-component polymer emulsion curing membrane

Flooring System Context

When specified for industrial flooring projects, Nitoprime 330 works alongside complementary Fosroc products: | System Component | Product Examples | |-----|-----| | **Floor Toppings** | Cemtop 100, Cemtop SL, Cemtop Screed | | **Primers** | Nitoprime 330, Nitoprime 320PU | | **High-Build Coatings** | Nitoflor range | | **Surface Treatments** | Nitoflor Lithium, anti-slip grains | | **Repair Materials** | Patchroc range |

Applications

Nitoprime 330 is recommended for: - **Internal flooring systems** - Preparing concrete substrates for toppings - **External flooring applications** - Enhancing adhesion in outdoor conditions - **Industrial facilities** - Manufacturing plants and warehouses - **Commercial spaces** - Offices and retail environments - **Food processing facilities** - As part of HACCP-certified flooring systems

Manufacturing and Distribution

Nitoprime 330 is manufactured and distributed by **Parchem Construction Supplies Pty Ltd** under the Fosroc brand licence in Australia and New Zealand: | Detail | Information | |-----|-----| | **Manufacturer/Distributor** | Parchem Construction Supplies Pty Ltd | | **ABN** | 80 069 961 968 | | **Parent Company** | DuluxGroup Limited | | **Global Parent** | Saint-Gobain | | **Manufacturing Locations** | Victoria and Wyong, NSW |

Technical Support

Fosroc provides comprehensive technical support for Nitoprime 330 specifications and applications through: - **National Specifications Team** - Expert product recommendation and application guidance - **Account Managers** - Over 70 dedicated account managers across Australia - **On-site Training** - Hands-on product application training - **Trade Store Network** - Direct access to technical staff support
