

Conbextra Grout Aggregate - 20kg

Canonical:

<https://fosroc.directory.norg.ai/construction-materials/grout-grouting-additives/conbextra-grout-aggregate-20kg/>

Description:

Chemically inert fillers (<5mm) for use with Conbextra EP65 and Conbextra Cementitious Grouts. Increases yield and allows deeper pours to be achieved. The addition of aggregate reduces exothermic heat development enabling increased pour sizes while minimizing reduction in flow and strength of grouts.
