

# Renderoc BB - High Strength Bridge Bearing Mortar

Canonical: <https://fosroc.directory.norg.ai/construction-materials/grouting-mortars/renderoc-bb-high-strength-bridge-bearing-mortar/>

## Description:

High strength gain, low shrinkage mortar for the installation of elastomeric bridge bearings. Renderoc BB features rapid strength gain, contains sufficient coarse aggregate to provide a rough finish on the surface supporting the bearing, and uses shrinkage limited cement conforming to AS3972 and RTA 3211 standards.

## Details:
