

# Conbextra BB92 Ultra-High Performance Grout

Canonical: <https://fosroc.directory.norg.ai/construction-materials/grouting-products/conbextra-bb92-ultra-high-performance-grout/>

## Description:

Ultra-high performance grout specifically designed for structural grouted connections for wind turbine foundations and oil and gas installations. Non-shrink formula with high flexural strength and modulus of elasticity. Suitable for pumping or pouring with no segregation or bleeding. 28-day strength of 90-100 MPa at 20°C.
