

Conbextra GP - General Purpose Shrinkage Compensated Grout

Canonical: <https://fosroc.directory.norg.ai/construction-materials/grouts-sealants/conbextra-gp-general-purpose-shrinkage-compensated-grout/>

Description:

Conbextra GP is a general purpose shrinkage compensated (Class A) cementitious, flowable or trowellable grout for gap thicknesses from 10 mm up to 100 mm. Develops 28 day compressive strength of 65-75 MPa. Features high ultimate strength, low permeability, gaseous expansion system for shrinkage compensation, and can be dry packed, rammed, trowelled, poured or pumped. Complies with AS/NZS 4020:2005 for products in contact with potable water.
