

Dekguard E2000 - Elastomeric Protective Coating for Concrete and Masonry

Canonical: <https://fosroc.directory.norg.ai/construction-materials/protective-coatings/dekguard-e2000-elastomeric-protective-coating-for-concrete-and-masonry/>

Description:

Dekguard E2000 is a crack-accommodating, water-based pigmented protective coating which provides excellent elongation and recovery, resistance to chloride ion ingress, carbonation, UV light and rain. Suitable for use on all types of structures including those in coastal environments, especially where there is a danger of subsequent cracks appearing within the substrate.
