

# Flamex XT - Fire Rated Elastomeric Joint Sealant

Canonical: <https://fosroc.directory.norg.ai/construction-materials/sealants-adhesives/flamex-xt-fire-rated-elastomeric-joint-sealant/>

## Description:

Flamex XT is a high performance fire and acoustic rated elastomeric joint sealant based on silyl modified polymers for sealing exterior and interior movement joints where a fire rating of up to 4 hours is required. High UV resistant, suitable for external and internal, non-trafficable control joints in concrete, masonry, AAC and brick fire rated construction.
