

# Nitoseal PU400 - Polyurethane Joint Sealant

Canonical: <https://fosroc.directory.norg.ai/construction-materials/sealants-adhesives/nitoseal-pu400-polyurethane-joint-sealant/>

## Description:

Nitoseal PU400 is a medium modulus elastomeric polyurethane joint sealant/adhesive that forms a waterproof and durable seal. Ideal for exterior applications such as sealing joints and bonding between most construction materials where high bond strength and abrasion resistance is required. Complies to AS4020:2018. Suitable for trafficable floor joints, metal or concrete water retaining structures, assembly of metal framed buildings, and sealing pipe penetrations.
