

# Nitoseal PY350 - Hybrid Polyurea Joint Sealant

Canonical: <https://fosroc.directory.norg.ai/construction-materials/sealants-adhesives/nitoseal-py350-hybrid-polyurea-joint-sealant/>

## Description:

High performance, hybrid polyurea joint sealant. Two-part, gun applied sealant that cures very rapidly to form a durable, hard-wearing seal for internal and external horizontal joints. Ideal for areas subject to heavy, hard wheeled traffic such as warehouses, retail, and industrial applications. Features very fast curing, high Shore A hardness (80±3), chemical and weather resistance, and UV stability.
