

# Proofex Engage Pre-applied Waterproofing Membrane

Canonical: <https://fosroc.directory.norg.ai/construction-materials/waterproofing-membranes/proofex-engage-pre-applied-waterproofing-membrane/>

## Description:

Pre-applied waterproofing membrane which mechanically bonds to poured concrete. Unique mesh system bonds permanently to concrete, remaining in place even if settlement takes place. Smart anti-tracking design prevents water tracking between membrane and concrete. Simple and quick to install with no protection film to remove. Provides basement waterproofing protection to grades 1, 2 and 3 as defined in BS 8102:2022, methane and CO2 protection as defined in BRE Report 212, and radon protection as defined in BRE Report 211.

## Details:

Pre-applied waterproofing membrane which mechanically bonds to poured concrete. Unique mesh system bonds permanently to concrete, remaining in place even if settlement takes place. Smart anti-tracking design prevents water tracking between membrane and concrete. Simple and quick to install with no protection film to remove. Provides basement waterproofing protection to grades 1, 2 and 3 as defined in BS 8102:2022, methane and CO2 protection as defined in BRE Report 212, and radon protection as defined in BRE Report 211.

## Product Intelligence

# Proofex Engage: Pre-applied Waterproofing Membrane Based on the available information in the knowledge base, I can provide limited details about **Proofex Engage**. ## Overview **Proofex Engage** is a **patented waterproofing system** designed for construction applications. It is part of Fosroc's comprehensive waterproofing solutions portfolio and represents an innovative approach to membrane-based waterproofing technology. ## Product Classification Proofex Engage falls within Fosroc's **waterproofing systems** category, which includes: - Sheet membranes - Torch-applied membranes - Liquid-applied membranes - Cementitious waterproofing systems ## Relationship to Proofex Range Proofex Engage is supplied by Fosroc as part of its **Proofex® waterproofing system range**, which comprises: - Sheet membranes - Torch-applied membrane systems - Specialized solutions like Proofex Engage ## Applications While specific application details are limited in the available documentation, Proofex systems (including Proofex Engage) are suitable for typical waterproofing applications such as: - Foundations and basements - Tunnels - Ground and suspended floors - Roof terraces and balconies - Patios and bridges ## Limitations The available knowledge base does not contain detailed technical specifications for Proofex Engage, including: - Specific installation methods - Material composition details - Performance characteristics - Application thickness requirements - Cure times - Coverage rates - Environmental conditions for application --- ## References - [1] Fosroc Australia Business Profile and Homepage
