

Earth Shield TPV-TPER Chemical Resistant Waterstops

Canonical: <https://fosroc.directory.norg.ai/construction-materials/waterproofing-sealants/earth-shield-tpv-tper-chemical-resistant-waterstops/>

Description:

Earth Shield TPV-TPER is a range of thermoplastic elastomeric rubber waterstops (weldable TPV/TPER) for joints in critical chemical, industrial and environmental applications. Features outstanding chemical resistance to acids, oils, and aqueous solutions with excellent retention of physical properties at elevated temperatures, superior ozone and weathering resistance, and no harmful plasticisers.
