

# Nitoband Bond Breaker Sealing System

Canonical: <https://fosroc.directory.norg.ai/construction-materials/waterproofing-sealants/nitoband-bond-breaker-sealing-system/>

## Description:

Nitoband is a superior sealing system for critical joint areas and an alternative to traditional bond-breaking methods. This bond breaker conforms to AS3740 and includes pre-fabricated corners and pipe penetration detailing squares for superior sealing in critical areas. Suitable for sealing movement joints and small expansion joints up to 25mm with high elongation and movement capabilities.
