

# Proofex S - Reinforced Bituminous Sealing Tape

Canonical: <https://fosroc.directory.norg.ai/construction-materials/waterproofing-sealants/proofex-s-reinforced-bituminous-sealing-tape/>

## Description:

Proofex S is an externally applied woven polypropylene tape coated with a modified bituminous self-adhesive compound. Normally used in conjunction with internally placed Conseal CS231 sealing strip. Ideal for sealing joints in pre-cast elements such as box culverts. Features rapid bonding, flexible long-lasting performance, high puncture resistance, and low water vapour transmission. Withstands hot asphalt overlays on roadways and car parks.
