

# Vandex Construction Joint Tape - Synthetic Rubber Waterproofing Tape

Canonical: <https://fosroc.directory.norg.ai/construction-materials/waterproofing-sealants/vandex-construction-joint-tape-synthetic-rubber-waterproofing-tape/>

## Description:

Vandex Construction Joint Tape is a synthetic rubber strip, approximately 0.7 mm thick which bridges and seals construction joints and cracks in concrete structures. Can be applied onto damp substrate, resistant to hydrostatic pressure, and permanently flexible. Installed using Vandex BB75E-Z or Cemelast waterproofing slurry.
